

## ***0.a. Goal***

Goal 10. Reduce inequalities within and across countries

## ***0.b. Target***

10.1 By 2030, gradually and sustainably achieve income growth for the poorest 40% of the population at a rate faster than the national average income

## ***0.c. Indicator***

10.1.1 b) Growth rate of household expenditure per capita for the entire population

## ***0.e. Metadata update***

5/1/2020 12:00:00 AM

## ***1.a. Organisation***

Burundi Institute of Statistics and Economic Studies (ISTEEBU)

## ***1.b. Contact person(s)***

NDAYISENGA Modest

## ***1.c. Contact organisation unit***

Social Studies and Statistics and Poverty Monitoring Service "SESSSP"

## ***1.d. Contact person function***

Head of the "Social Studies and Statistics and Poverty Monitoring" department

## ***1.e. Contact phone***

(+257) 79401937

## ***1.f. Contact mail***

1156 BUJUMBURA

## ***1.g. Contact email***

ndayimode2010@gmail.com

## ***2.a. Definition and concepts***

It is the average annual growth rate of real per capita consumption of the distribution of household income in a country

## ***2.b. Unit of measure***

Percentage

## ***3.a. Data sources***

Household surveys

## ***3.b. Data collection method***

The data are collected by carrying out surveys type ECVMB

## ***3.e. Data providers***

ISTEEBU

## ***3.f. Data compilers***

ISTEEBU is responsible for compiling the data allowing the calculation of this indicator at the national level

## ***3.g. Institutional mandate***

ISTEEBU is the body recognized by the Burundian government for the collection, processing and dissemination, after validation, of official statistics helping in planning and decision-making

## ***4.a. Rationale***

The indicator is relevant because it reflects the level of expenditure over a year and allows a comparison to be made

## ***4.c. Method of computation***

It is the ratio between the variation in household expenditure per capita during a given year compared to household expenditure per capita in the previous year,

## ***4.d. Validation***

Survey data is validated at two levels: internal validation and extended validation

## ***5. Data availability and disaggregation***

The indicator is available at national level

## ***7. References and Documentation***

ECVMB 2013-2014 report and QUIBB 2006 survey
