

0.a. Goal

Goal 5. Achieve gender equality and empower all women and girls

0.b. Target

5.2 Eliminate from public and private life all forms of violence against women and girls, including trafficking and sexual exploitation and other types of exploitation

0.c. Indicator

5.2.1 Proportion of women and girls aged 15 and over who have lived as a couple victims of physical or sexual violence during the previous 12 months

0.e. Metadata update

2020

1.a. Organisation

ISTEEBU

1.b. Contact person(s)

NDAYISENGA Modest

1.c. Contact organisation unit

Department of Social Studies and Statistics and Poverty Monitoring, Ponit focal ODD

1.d. Contact person function

Head of Service and Focal Point

1.e. Contact phone

79401937

1.g. Contact email

ndayimode2010@gmail.com

2.a. Definition and concepts

It is the ratio between women and girls aged 15 and over who have lived as a couple victims of physical or sexual violence during the previous 12 months and all women and girls aged 15 and over.

2.b. Unit of measure

%

3.a. Data sources

EDSB-III, 2016-2017

3.b. Data collection method

Data are collected from household surveys using the "household" questionnaire

3.c. Data collection calendar

The probable date of the next collection will be 2021 (Next DHS)

3.d. Data release calendar

In 2022

3.e. Data providers

ISTEEBU

3.f. Data compilers

ISTEEBU is responsible for compiling this indicator at the national level

3.g. Institutional mandate

ISTEEBU is the body recognized by the Burundian government for the collection, processing and dissemination of official statistics helping in planning and decision-making.

4.a. Rationale

The indicator is relevant because it captures the situation of violence against women.

4.b. Comment and limitations

Updating the indicator requires a household survey which is very resource intensive.

4.c. Method of computation

Women and girls aged 15 and over who have lived in a relationship who have experienced physical or sexual violence in the past 12 months divided by the total of all women and girls aged 15 and over multiplied by 100.

4.d. Validation

The results of the survey are validated at two levels: technical validation and official validation before publication

5. Data availability and disaggregation

The indicator is available at national level

6. Comparability/deviation from international standards

The indicator can be compared to other indicators of the same type at regional and international level

7. References and Documentation

Report of the Demographic and Health Survey 2016-2017
