

## ***0.a. Goal***

Goal 2. End hunger, achieve food security, improve nutrition and promote sustainable agriculture

## ***0.b. Target***

2.3 By 2030, double the agricultural productivity and incomes of small-scale food producers, in particular women, indigenous people, family farmers, pastoralists and fishermen, including by ensuring equal access to land, other productive resources and factors of production, knowledge, financial services, markets and opportunities for value addition and non-agricultural employment

## ***0.c. Indicator***

2.3.1. Quantity of annual production (in tonnes)

## ***1.a. Organisation***

MINEAGRIE

## ***1.b. Contact person(s)***

MBAZUMUTIMANA Dieudonne

## ***1.e. Contact phone***

79548570

## ***1.g. Contact email***

dembaze@yahoo.fr

## ***2.a. Definition and concepts***

it is the ratio between the volume of agricultural production on the number of agricultural workers or the volume of agricultural labor hours

## ***2.b. Unit of measure***

Ton per worker

## ***3.a. Data sources***

National Agricultural Survey

### ***3.b. Data collection method***

Data are collected from household surveys using the "household" questionnaire

### ***3.c. Data collection calendar***

The probable date of the next collection will be 2021 (Next DHS)

### ***3.d. Data release calendar***

In 2021

### ***3.e. Data providers***

MINEAGRIE

### ***3.f. Data compilers***

MINEAGRIE is responsible for compiling this indicator at the national level

### ***3.g. Institutional mandate***

The Ministerial departments in charge of statistical production are members of the SSN and have a mandate to collect, process and disseminate official statistics helping in planning and decision-making.

## ***4.a. Rationale***

The indicator is relevant because it reflects the situation on plant and animal production

## ***4.b. Comment and limitations***

Updating the indicator requires a household survey which requires a lot of resources and most of which is donated by partners

## ***4.c. Method of computation***

Ratio of the volume of agricultural production to the number of agricultural workers or the volume of agricultural labor hours, expressed in tonnes per worker

## ***4.d. Validation***

The results of the survey are validated at two levels: technical validation and official validation before publication

## ***5. Data availability and disaggregation***

The indicator is available at national level

## ***6. Comparability/deviation from international standards***

The indicator can be compared to other indicators of the same type at regional and international level

## ***7. References and Documentation***

Report of the National Survey of Agriculture in Burundi
