

## ***0.a. Goal***

Objective 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

## ***0.b. Target***

8.1 Maintain an economic growth rate per capita adapted to the national context and, in particular, an annual growth rate of the gross domestic product of at least 7% in the least developed countries

## ***0.c. Indicator***

8.1.1. Annual growth rate of real GDP

## ***0.e. Metadata update***

5/1/2020 12:00:00 AM

## ***1.a. Organisation***

Burundi Institute of Statistics and Economic Studies (ISTEEBU)

## ***1.b. Contact person(s)***

NDAYISENGA Modest

## ***1.c. Contact organisation unit***

Social Studies and Statistics and Poverty Monitoring Service "SESSSP"

## ***1.d. Contact person function***

Head of the "Social Studies and Statistics and Poverty Monitoring" department

## ***1.e. Contact phone***

(+257) 79401937

## ***1.f. Contact mail***

1156 BUJUMBURA

## ***1.g. Contact email***

ndayimode2010@gmail.com

## ***2.a. Definition and concepts***

It is the percentage change in real GDP in year  $n$  compared to real GDP in year  $n-1$

## ***2.b. Unit of measure***

Percentage

## ***3.a. Data sources***

Data is collected from administrative sources

## ***3.b. Data collection method***

The growth rate of real GDP is evaluated by the prices of the base year and the volume production of the years considered.

## ***3.c. Data collection calendar***

every year

## ***3.d. Data release calendar***

In 2021

## ***3.e. Data providers***

ISTEEBU, Economic Accounts of Burundi

## ***3.f. Data compilers***

ISTEEBU is responsible for compiling the data allowing the calculation of this indicator at the national level

## ***3.g. Institutional mandate***

ISTEEBU is the body recognized by the Burundian government for the collection, processing and dissemination, after validation, of official statistics helping in planning and decision-making

## ***4.a. Rationale***

The indicator is relevant because it reflects the level of development of the country

#### ***4.b. Comment and limitations***

It is interesting to do an analysis of GDP growth over a long period in order to see the general trend.

#### ***4.c. Method of computation***

$$[(\text{Real GDP } n - \text{real GDP } n-1) / \text{real GDP } n-1] * 100$$

#### ***4.d. Validation***

Data from administrative sources are most often validated by the Technical Committee for Statistical Information (CTIS).

### ***5. Data availability and disaggregation***

The indicator is available at national level

### ***6. Comparability/deviation from international standards***

The indicator can be compared to other indicators of the same type at regional and international level

### ***7. References and Documentation***

National Accounts
