

0.a. Goal

Goal 1. Eradicate poverty in all its forms and everywhere

0.b. Target

1.4 By 2030, ensure that all men and women, especially the poor and vulnerable, have equal rights to economic resources and have access to basic services, land ownership, control over land and other forms of property, inheritance, natural resources and new technologies and financial services tailored to their needs, including microfinance

0.c. Indicator

1.4.3. Average population per health center

0.e. Metadata update

2020

1.a. Organisation

MSPLS

1.b. Contact person(s)

NIYUNGEKO Jacqueline

1.d. Contact person function

Focal point at MSPLS

1.e. Contact phone

79976694

1.g. Contact email

niyungeko.jacqueline@gmail.com

2.a. Definition and concepts

Average number of population for a health center

2.b. Unit of measure

%

3.a. Data sources

Health statistics yearbook

3.b. Data collection method

Data is collected from administrative registers of health facilities

3.c. Data collection calendar

Collection is done annually

3.d. Data release calendar

Every year

3.e. Data providers

MSPLS

3.f. Data compilers

MSPLS

3.g. Institutional mandate

The Ministerial departments are the members of the SSN whose mission is to collect, process and disseminate the data of their sector.

4.a. Rationale

The indicator is relevant because it reflects the health situation in Burundi.

4.b. Comment and limitations

Updating the indicator requires exhaustive collection in health facilities. For most of the data, data from private health facilities are not taken into account.

4.c. Method of computation

Ratio between the number of health centers and the total population multiplied by 100

4.d. Validation

The results of the data collection are validated at two levels: internal validation and validation at the CTIS level before publication

5. Data availability and disaggregation

The indicator is available at the national level and by area of residence (Total; Urban area; Rural area)

6. Comparability/deviation from international standards

The indicator can be compared to other indicators of the same type at regional and international level

7. References and Documentation

Health statistics yearbook
