

## ***0.a. Goal***

Goal 1. Eradicate poverty in all its forms and everywhere

## ***0.b. Target***

1.4 By 2030, ensure that all men and women, especially the poor and vulnerable, have equal rights to economic resources and have access to basic services, land ownership, control over land and other forms of property, inheritance, natural resources and new technologies and financial services tailored to their needs, including microfinance

## ***0.c. Indicator***

1.4.3. Average population per health center

## ***0.e. Metadata update***

2020

## ***1.a. Organisation***

MSPLS

## ***1.b. Contact person(s)***

NIYUNGEKO Jacqueline

## ***1.d. Contact person function***

Focal point at MSPLS

## ***1.e. Contact phone***

79976694

## ***1.g. Contact email***

niyungeko.jacqueline@gmail.com

## ***2.a. Definition and concepts***

Average number of population for a health center

## ***2.b. Unit of measure***

%

## ***3.a. Data sources***

Health statistics yearbook

## ***3.b. Data collection method***

Data is collected from administrative registers of health facilities

## ***3.c. Data collection calendar***

Collection is done annually

## ***3.d. Data release calendar***

Every year

## ***3.e. Data providers***

MSPLS

## ***3.f. Data compilers***

MSPLS

## ***3.g. Institutional mandate***

The Ministerial departments are the members of the SSN whose mission is to collect, process and disseminate the data of their sector.

## ***4.a. Rationale***

The indicator is relevant because it reflects the health situation in Burundi.

## ***4.b. Comment and limitations***

Updating the indicator requires exhaustive collection in health facilities. For most of the data, data from private health facilities are not taken into account.

## ***4.c. Method of computation***

Ratio between the number of health centers and the total population multiplied by 100

#### ***4.d. Validation***

The results of the data collection are validated at two levels: internal validation and validation at the CTIS level before publication

#### ***5. Data availability and disaggregation***

The indicator is available at the national level and by area of residence (Total; Urban area; Rural area)

#### ***6. Comparability/deviation from international standards***

The indicator can be compared to other indicators of the same type at regional and international level

#### ***7. References and Documentation***

Health statistics yearbook
