

0.a. Goal

Goal 1. Eradicate poverty in all its forms and everywhere

0.b. Target

1.4 By 2030, ensure that all men and women, especially the poor and vulnerable, have equal rights to economic resources and have access to basic services, land ownership, control over land and other forms of property, inheritance, natural resources and new technologies and financial services tailored to their needs, including microfinance

0.c. Indicator

1.4.5. Penetration rate of financial institutions in the population

0.e. Metadata update

2020

1.a. Organisation

BRB

1.b. Contact person(s)

NKENGURUTSE Eliane

1.d. Contact person function

SDG focal point at the BRB

1.e. Contact phone

71939597

1.g. Contact email

enkengurutse@brb.bi

2.a. Definition and concepts

Number of people aged 18 and over with a bank account in a microfinance institution compared to the number of people aged 18 and over

2.b. Unit of measure

%

2.c. Classifications

N / A

3.a. Data sources

Bank of the Republic of Burundi

3.b. Data collection method

Data are collected from household surveys using the "household" questionnaire

3.c. Data collection calendar

The probable date of the next collection will be 2020

3.d. Data release calendar

In 2021

3.e. Data providers

ISTEEBU

3.f. Data compilers

ISTEEBU is responsible for compiling this indicator at the national level

3.g. Institutional mandate

ISTEEBU is the body recognized by the Burundian government for the collection, processing and dissemination of official statistics helping in planning and decision-making.

4.a. Rationale

The indicator is relevant because it reflects the level of banking in Burundi.

4.b. Comment and limitations

Updating the indicator requires a household survey that is very resource-intensive and almost all of the funding comes from partners.

4.c. Method of computation

Ratio of people aged 18 and over with a bank account in a microfinance institution to the number of the population aged 18 and over multiplied by 100

4.d. Validation

The results of the survey are validated at two levels: technical validation and official validation before publication

5. Data availability and disaggregation

The indicator is available at national level, province, area of residence (Total; Women; Men; Urban area; Rural area)

6. Comparability/deviation from international standards

The indicator can be compared to other indicators of the same type at regional and international level

7. References and Documentation

Report of the Survey on Household Living Conditions in Burundi
