

0.a. Goal

Objective 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

0.b. Target

8.1 Maintain an economic growth rate per capita adapted to the national context and, in particular, an annual growth rate of the gross domestic product of at least 7% in the least developed countries

0.c. Indicator

8.1.1. Annual growth rate of real GDP

0.e. Metadata update

5/1/2020 12:00:00 AM

1.a. Organisation

Burundi Institute of Statistics and Economic Studies (ISTEEBU)

1.b. Contact person(s)

NDAYISENGA Modest

1.c. Contact organisation unit

Social Studies and Statistics and Poverty Monitoring Service "SESSSP"

1.d. Contact person function

Head of the "Social Studies and Statistics and Poverty Monitoring" department

1.e. Contact phone

(+257) 79401937

1.f. Contact mail

1156 BUJUMBURA

1.g. Contact email

ndayimode2010@gmail.com

2.a. Definition and concepts

It is the percentage change in real GDP in year n compared to real GDP in year n-1

2.b. Unit of measure

Percentage

3.a. Data sources

Data is collected from administrative sources

3.b. Data collection method

The growth rate of real GDP is evaluated by the prices of the base year and the volume production of the years considered.

3.c. Data collection calendar

every year

3.d. Data release calendar

In 2021

3.e. Data providers

ISTEEBU, Economic Accounts of Burundi

3.f. Data compilers

ISTEEBU is responsible for compiling the data allowing the calculation of this indicator at the national level

3.g. Institutional mandate

ISTEEBU is the body recognized by the Burundian government for the collection, processing and dissemination, after validation, of official statistics helping in planning and decision-making

4.a. Rationale

The indicator is relevant because it reflects the level of development of the country

4.b. Comment and limitations

It is interesting to do an analysis of GDP growth over a long period in order to see the general trend.

4.c. Method of computation

$$[(\text{Real GDP } n - \text{real GDP } n-1) / \text{real GDP } n-1] * 100$$

4.d. Validation

Data from administrative sources are most often validated by the Technical Committee for Statistical Information (CTIS).

5. Data availability and disaggregation

The indicator is available at national level

6. Comparability/deviation from international standards

The indicator can be compared to other indicators of the same type at regional and international level

7. References and Documentation

National Accounts
