

0.a. Goal

Goal 2. End hunger, achieve food security, improve nutrition and promote sustainable agriculture

0.b. Target

2.3 By 2030, double the agricultural productivity and incomes of small-scale food producers, in particular women, indigenous people, family farmers, pastoralists and fishermen, including by ensuring equal access to land, other productive resources and factors of production, knowledge, financial services, markets and opportunities for value addition and non-agricultural employment

0.c. Indicator

2.3.3. Quantity of annual production (in tonnes; number of head of cattle)

1.a. Organisation

MINEAGRIE

1.b. Contact person(s)

MBAZUMUTIMANA Dieudonne

1.e. Contact phone

79548570

1.g. Contact email

dembaze@yahoo.fr

2.a. Definition and concepts

It is the ratio between the volume of livestock production on the number of agricultural workers or the volume of labor hours devoted to livestock

2.b. Unit of measure

UBT per worker

3.a. Data sources

National Agricultural Survey

3.b. Data collection method

Data are collected from household surveys using the "household" questionnaire

3.c. Data collection calendar

The probable date of the next collection will be 2021 (Next DHS)

3.d. Data release calendar

In 2021

3.e. Data providers

MINEAGRIE

3.f. Data compilers

MINEAGRIE is responsible for compiling this indicator at the national level

3.g. Institutional mandate

The Ministerial departments in charge of statistical production are members of the SSN and have a mandate to collect, process and disseminate official statistics helping in planning and decision-making.

4.c. Method of computation

Ratio between the volume of livestock production over the number of agricultural workers or the volume of labor hours devoted to livestock, expressed in TLU per worker

4.d. Validation

The results of the survey are validated at two levels: technical validation and official validation before publication

5. Data availability and disaggregation

The indicator is available at national level

6. Comparability/deviation from international standards

The indicator can be compared to other indicators of the same type at regional and international level

7. References and Documentation

Report of the National Survey of Agriculture in Burundi
