

0.a. Goal

Objective 15. Preserve and restore terrestrial ecosystems, ensuring that they are used in a sustainable manner, sustainably manage forests, fight against desertification, halt and reverse the process of land degradation and put an end to the loss of biodiversity

0.b. Target

15.4 By 2030, ensure the preservation of mountain ecosystems, in particular their biodiversity, in order to better take advantage of their essential benefits for sustainable development

0.c. Indicator

15.4.1 Proportion of the area of natural mountain ecosystems that are found in protected areas.

0.e. Metadata update

2012

1.a. Organisation

Burundian Office for Environmental Protection (OBPE)

1.b. Contact person(s)

NTAKARUTIMANA Oswald

1.c. Contact organisation unit

Statistical service

1.d. Contact person function

OBPE SDG production focal point

1.e. Contact phone

79946503

1.g. Contact email

ntakos2050@gmail.com

2.a. Definition and concepts

Proportion of the area of natural mountain ecosystems that are found in protected areas.

2.b. Unit of measure

%

3.a. Data sources

OBPE

3.b. Data collection method

Administrative data

3.c. Data collection calendar

Not determined

3.d. Data release calendar

Not determined

3.e. Data providers

OBPE

3.f. Data compilers

OBPE

3.g. Institutional mandate

The OBPE as a recognized state structure has a mandate to collect, process and disseminate data from the sector

4.a. Rationale

The indicator is relevant because it reflects the level of environmental protection

4.b. Comment and limitations

The exhaustiveness of this indicator depends on the regular collection of data on the level of environmental protection.

4.c. Method of computation

Ratio of the area of natural mountain ecosystems found in the country's protected areas to the total area of the country, expressed as a percentage.

4.d. Validation

The validation of this indicator was done at national and international level

5. Data availability and disaggregation

Available nationally

6. Comparability/deviation from international standards

The indicator is internationally comparable

7. References and Documentation
