

0.a. Goal

Objective 7. Guarantee access for all to reliable, sustainable and modern energy services at an affordable cost

0.b. Target

7.1 By 2030, ensure universal access to affordable, reliable and modern energy services

0.c. Indicator

7.1.1. Electricity access rate

0.e. Metadata update

5/1/2020 12:00:00 AM

1.a. Organisation

MHEM / REGIDESO

1.b. Contact person(s)

WAKANA Ferdinand

1.c. Contact organisation unit

MHEM statistics and planning department

1.d. Contact person function

SDG focal point at MHEM

1.e. Contact phone

(+257) 79977298

1.f. Contact mail

1156 BUJUMBURA

1.g. Contact email

wakanafer@yahoo.fr

2.a. Definition and concepts

The access rate corresponds to the ratio between the population served and the total population, which is expressed as a percentage

2.b. Unit of measure

Percentage

3.a. Data sources

EDS 2010, EDSB 2016 and ECMVB 2013-2014

3.b. Data collection method

Household survey

3.c. Data collection calendar

The probable date of the next collection will be 2021

3.d. Data release calendar

In 2021

3.e. Data providers

MHEN / REGIDESO / ISTEEBU

3.f. Data compilers

ISTEEBU is responsible for compiling this indicator at the national level

3.g. Institutional mandate

ISTEEBU is the body recognized by the Burundian government for the collection, processing and dissemination of official statistics helping in planning and decision-making.

4.a. Rationale

The indicator is relevant because it reflects the level of electricity coverage

4.b. Comment and limitations

The numerator may not be exhaustive because some households supplied with electricity are not registered with REGIDESO. The indicator cannot be calculated by gender.

4.c. Method of computation

Ratio of the population that can be connected to electricity and the total population, expressed as a percentage

4.d. Validation

The survey results data are validated at two levels: technical validation and official validation before publication.

5. Data availability and disaggregation

The indicator is available nationally and by area of residence (Total; Urban area; Rural area)

6. Comparability/deviation from international standards

The indicator can be compared to other indicators of the same type at regional and international level

7. References and Documentation

REGIDESO report
